

## **Author Guidelines**

**We do not have strict formatting requirements; however, all manuscripts must cover the essential sections:**

### **Title**

The title must be as brief as possible, comprehensive and descriptive. Each author must provide their full name including their forenames and surname. The next line is followed by their address. If any of the co-authors are from different organizations, their addresses should be mentioned and indicated using numbers after their names. The E-mail address of the Corresponding Author must be marked with an asterisk and should be listed last.

### **Abstract**

Should start after the title page and should present the reason of the study, significant, method, the main findings, contribution of the paper, not more than 250 words.

**Keywords:** 5-6 keywords should be provided for online searching.

### **Introduction**

Should start after abstract and should clearly introduce the topic, Problem statement, gap, methodology, findings and implication. Give the brief paragraph about the objective and problem of the present investigation/paper.

### **Literature Review**

Summarise relevant previous research critically, synthesis the other works.

### **Methodology/ Methods**

Should be clearly mentioned about the different methodology adopted for the investigation with proper citations. Present the research design, research type, research duration, inclusion/exclusion criteria, choice of subjects, etc. Describe the methodology completely, including sample collection, processing, lab analysis, statistical tests used for data analysis etc.

### **Results and Discussion**

The results precise with discussion and be clear in presenting the data. It may be supported and presented by the graphs, figures and tables. The discussion can either be a part of the Results section or a separate section of its own.

### **Figures**

Each figure should have a caption at the bottom. The caption should be concise and typed separately, not on the figure area.

### **Tables Title**

Every table must have a unique title placed at the top. Titles should be clear and concise, and they should not be complete sentences. Cite each table in numerical order.

### **Equation**

The equation number should be placed in parentheses to the right of the equation. Do not create equations as pictures. Use Math Type or insert symbols as normal text.

### **Conclusion**

The Conclusions section can be written up by using the following structure: Introduction, Results, Significance of the research/practical implications, Limitations, Recommended topics for further study.

### **Acknowledgements**

All acknowledgments should be typed in one paragraph directly preceding the reference section.

### **REFERENCES**

All sources cited in text must appear in the reference list, and all items in the reference list must be cited in text.

Plagiarism report **must** be less than %20.

Complete file should be submitted to the **miedutechgrpconference@gmail.com**
